The Michelson Prize & Grants in Reproductive Biology

Apply for Research Grants

THE MICHELSN GRANTS
The Foundation seeks proposals for up to $250,000 per year for up to 3 years of funding for research in pursuit of permanent contraceptives for male and female cats and dogs. The first step in the Michelson Grant process is submission of a Letter of Intent (LOI).
For further details, visit: http://michelson.foundanimals.org.

THE MICHELSN PRIZE
A $25 million prize will be awarded to the first entity to provide to Found Animals a safe, effective, and practical non-surgical sterilant for use in cats and dogs. The winning entry for the Michelson Prize in Reproductive Biology must meet the following criteria:

- Single dose, permanent non-surgical sterilant
- Safe and effective in male and female cats and dogs
- Suitable for administration in a field setting
- Viable pathway to regulatory approval
- Reasonable manufacturing process and cost

Found Animals encourages scientists from a diverse range of fields to compete for the Michelson Prize & Grants.
